#### Actuant Announces Record Second Ouarter Results

MILWAUKEE--(BUSINESS WIRE)--March 22, 2006--Actuant Corporation (NYSE:ATU) today announced results for its second quarter ended February 28, 2006. Second quarter fiscal 2006 net earnings and diluted earnings per share ("EPS") were \$19.3 million and \$0.63, respectively versus comparable prior year period net earnings and EPS of \$15.2 million and \$0.52, respectively. This represents 21% year-over-year EPS growth in the second quarter. Net earnings for the six-months ended February 28, 2006 were \$40.6 million, or \$1.33 per diluted share, compared to \$32.1 million, or \$1.13 per diluted share for the prior year period.

Second quarter sales increased approximately 17% to \$276.0 million compared to \$235.3 million in the prior year. Current year results include those from Key Components, Inc. ("KCI"), Hedley Purvis Ltd., Hydratight Sweeney, and B.E.P. Marine Limited, which were acquired in the second quarter of fiscal 2005 or later. Excluding the impact of foreign currency exchange rate changes, second quarter core sales (year-over-year sales growth in both existing and acquired businesses) increased approximately 6% over the comparable prior year period. Sales for the quarter, excluding acquisitions and foreign currency rate changes, increased 8%. Sales for the six months ended February 28, 2006 were \$559.9 million, approximately 29% higher than the \$434.9 million in the comparable prior year period. Excluding the impact of foreign currency rate changes, core sales and sales excluding acquisitions for the six-month period both increased 3%.

Robert C. Arzbaecher, President and CEO of Actuant, commented, "We are pleased with second quarter results, including the 17% sales and 21% EPS growth. In addition to 6% core sales growth in the quarter, we had sizeable margin expansion with operating margins up 120 basis points from the prior year."

Arzbaecher continued, "On a segment basis, Tools & Supplies posted strong second quarter results, driven by robust demand in the industrial tools and North American electrical markets. Excluding the impact of foreign currency exchange rate changes, our Engineered Solutions segment core sales declined 1% from a year ago, a significant sequential improvement from the 11% year-over-year sales decline in the first quarter. The improvement was driven by a year-over-year rebound in automotive sales, which were up 5% in the second quarter compared to a 29% year-over-year decline in the first quarter. This improvement had been anticipated due to the launch of four new convertible top platforms in the last six months. End-market diversity is a critical part of the Actuant strategy - we continue to generate increased sales and earnings in total, despite headwinds in a few markets."

Actuant's operating profit in the second quarter of fiscal 2006 was \$34.9 million, or 30% higher than the \$26.9 million in the comparable prior year period. Operating profit margin increased 120 basis points from 11.4% in the second quarter of last year to 12.6% in the current year. This increase was driven by higher production volumes, favorable sales mix, and continued efforts across all businesses to drive LEAD (Lean Enterprise Across Disciplines) initiatives, including low cost country sourcing.

Second quarter fiscal 2006 sales for the Tools & Supplies segment increased approximately 26% to \$174.6 million, compared to \$138.5 million in the previous year. Excluding the impact of foreign currency rate changes, year-over-year second quarter Tools & Supplies segment core sales increased 11% and sales excluding acquisitions increased 14%. Second quarter fiscal 2006 Engineered Solutions segment sales increased approximately 5% to \$101.4 million, compared to \$96.7 million in the previous year. Excluding the impact of foreign currency rate changes, second quarter Engineered Solutions core sales and sales excluding acquisitions both decreased 1%, the result of lower sales to the recreational vehicle market due to weak consumer demand.

Total debt at February 28, 2006 was approximately \$428 million. Net debt (total debt less approximately \$11 million of cash) was \$417 million, compared to \$418 million at the beginning of the quarter. Excluding the approximate \$9 million of cash used for acquisition related activities and a \$2 million decline in accounts receivable securitization, Actuant generated approximately \$12 million of cash flow in the second quarter, which is a seasonally weak cash-flow period. The Company had availability under its revolving credit facility of \$225 million at February 28, 2006.

The Company also announced sales and earnings guidance for the third quarter and full year of fiscal 2006. Arzbaecher stated, "We expect third quarter sales and EPS to increase as compared to the first two quarters due to normal seasonality as well as accelerating automotive convertible top sales. We are projecting third quarter sales and EPS to be in the range of \$300 - \$310 million and \$0.73 - \$0.78 per share, respectively. We are raising the lower end of our full year fiscal 2006 sales and EPS ranges, resulting in updated guidance of \$1.155 - \$1.175 billion and \$2.80 - \$3.00 per share, respectively."

#### Safe Harbor Statement

Certain of the above comments represent forward-looking statements made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. Management cautions that these statements are based on current estimates of future performance and are highly dependent upon a variety of factors, which could cause actual results to differ from these estimates. Actuant's results are also subject to general economic conditions, variation in demand from customers,

the impact of geopolitical activity on the economy, continued market acceptance of the Company's new product introductions, the successful integration of acquisitions and related restructuring, operating margin risk due to competitive pricing and operating efficiencies, supply chain risk, material and labor cost increases, foreign currency fluctuations and interest rate risk. See the Company's registration statements filed with the Securities and Exchange Commission for further information regarding risk factors.

An investor conference call is scheduled for 11am ET today, March 22, and may be listened to via web cast on Actuant's website at www.actuant.com.

#### About Actuant

Actuant, headquartered in Glendale, Wisconsin, is a diversified industrial company with operations in more than 30 countries. The Actuant businesses are market leaders in highly engineered position and motion control systems and branded hydraulic and electrical tools and supplies. Since its creation through a spin-off in 2000, Actuant has grown its sales from \$482 million to over \$1 billion and its market capitalization from \$113 million to over \$1.5 billion. The company employs a workforce of approximately 6,000 worldwide. Actuant Corporation trades on the NYSE under the symbol ATU. For further information on Actuant and its business units, visit the Company's website at www.actuant.com.

(1) EBITDA represents net earnings before financing costs, net, income tax expense, depreciation & amortization and minority interest. EBITDA is not a calculation based upon generally accepted accounting principles (GAAP). The amounts included in the EBITDA calculation, however, are derived from amounts included in the Consolidated Statements of Earnings data. EBITDA should not be considered as an alternative to net earnings or operating profit as an indicator of the company's operating performance, or as an alternative to operating cash flows as a measure of liquidity. Actuant has presented EBITDA because it regularly reviews this as a measure of the company's ability to incur and service debt. In addition, EBITDA is used by many of our investors and lenders, and is presented as a convenience to them. However, the EBITDA measure presented may not always be comparable to similarly titled measures reported by other companies due to differences in the components of the calculation.
