QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended May 31, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File No. 1-11288

ACTUANT CORPORATION

(Exact name of registrant as specified in its charter)

Wisconsin
(State of
incorporation)

39-0168610
(I.R.S. Employer
Id. No.)

N86 W12500 WESTBROOK CROSSING
MENOMONEE FALLS, WISCONSIN 53051
Mailing address: P. O. Box 3241, Milwaukee, Wisconsin 53201
(Address of principal executive offices)

(262) 293-1500
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "accelerated filer", "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.): Yes No

The number of shares outstanding of the registrant's Class A Common Stock as of June 30, 2012 was 72,850,365.

FORWARD LOOKING STATEMENTS AND CAUTIONARY FACTORS

This quarterly report on Form 10-Q contains certain statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties. Such forward-looking statements include statements regarding expected financial results and other planned events, including, but not limited to, anticipated liquidity, and capital expenditures. Words such as “may,” “should,” “could,” “anticipate,” “believe,” “estimate,” “expect,” “plan,” “project” and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Therefore, actual future events or results may differ materially from these statements. We disclaim any obligation to publicly update or revise any forward-looking statements as a result of new information, future events or any other reason.

The following is a list of factors, among others, that could cause actual results to differ materially from the forward-looking statements:

- the timing or strength of a worldwide economic recovery;
- the realization of anticipated cost savings from restructuring activities and cost reduction efforts;
- market conditions in the truck, automotive, specialty vehicle, agriculture, industrial, oil & gas, energy, power generation, marine, solar, infrastructure, residential and commercial construction and retail Do-It Yourself (“DIY”) industries;
- increased competition in the markets we serve and market acceptance of existing and new products;
- our ability to successfully identify and integrate acquisitions and realize anticipated benefits/results from acquired companies;
- operating margin risk due to competitive product pricing, operating efficiencies and material, labor and overhead cost increases;
- foreign currency, interest rate and commodity risk;
- supply chain and industry trends, including changes in purchasing and other business practices by customers;
- regulatory and legal developments including changes to United States taxation rules, health care reform and governmental climate change initiatives;
- our level of indebtedness, ability to comply with the financial and other covenants in our debt agreements and current credit market conditions.

Table of Contents

Our Form 10-K for the fiscal year ended August 31, 2011 contains an expanded description of these and other risks that may affect our business, financial position and results of operations under the section entitled "Risk Factors."

When used herein, the terms "Actuant," "we," "us," "our" and the "Company" refer to Actuant Corporation and its subsidiaries.

Actuant Corporation provides free-of-charge access to its Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments thereto, through its website, www.actuant.com, as soon as reasonably practical after such reports are electronically filed with the Securities and Exchange Commission.

Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**
(*In thousands, except share and per share amounts*)**Note 1. Basis of Presentation***Consolidation and Presentation*

The accompanying unaudited condensed consolidated financial statements of Actuant Corporation (“Actuant,” or the “Company”) have been prepared in accordance with generally accepted accounting principles for interim financial reporting and with the instructions of Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The condensed consolidated balance sheet data as of August 31, 2011 was derived from the Company’s audited financial statements, but does not include all disclosures required by generally accepted accounting principles. For additional information, including the Company’s significant accounting policies, refer to the consolidated financial statements and related footnotes in the Company’s fiscal 2011 Annual Report on Form 10-K.

In the opinion of management, all adjustments considered necessary for a fair presentation of financial results have been made. Such adjustments consist of only those of a normal recurring nature. Operating results for the three and nine months ended May 31, 2012 are not necessarily indicative of the results that may be expected for the entire fiscal year ending August 31, 2012.

New Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board (FASB) updated the disclosure requirements for comprehensive income. The updated guidance requires companies to disclose the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The updated guidance does not affect how earnings per share is calculated or presented. The amended guidance, which must be applied retroactively, is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with earlier adoption permitted.

In September 2011, the FASB issued an amendment to existing guidance on the testing of goodwill for impairment. Under the revised guidance, entities testing goodwill for impairment have the option of performing a qualitative assessment before calculating the fair value of the reporting unit. If entities determine, on the basis of qualitative factors, that the fair value of the reporting unit is more likely than not less than the carrying amount, the two-step impairment test would be required. The amendment is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with earlier adoption permitted.

Note 2. Acquisitions

The Company continually evaluates potential acquisitions that are a strategic fit with the Company’s existing businesses or expand the Company’s portfolio into new and attractive end markets. These acquisitions result in the recognition of goodwill in the Company’s financial statements because the purchase prices reflect the future earnings and cash flow potential of the acquired companies, as well as the complementary strategic fit and resulting synergies these businesses bring to existing operations.

On March 28, 2012 the Company acquired the stock of Turotest Medidores Ltda (“Turotest”) for \$8.1 million of cash and deferred consideration of \$5.3 million. Turotest, an Engineered Solutions segment acquisition, headquartered in San Paulo, Brazil designs and manufactures instrument panels and gauges serving the Brazilian agriculture and industrial markets. The acquisition resulted in the recognition of \$5.5 million of goodwill (which is not deductible for tax purposes) and \$7.0 million of intangible assets (customer relationships, tradename and non-compete).

On February 10, 2012 the Company completed the acquisition of the stock of Jeyco Pty Ltd (“Jeyco”) for \$20.7 million of cash. Jeyco, an Energy segment acquisition, headquartered near Perth, Australia, designs and provides specialized mooring, rigging and towing systems and services to the offshore oil & gas industry in Australia and other international markets. Additionally, Jeyco’s products are used in a variety of applications for other markets including cyclone mooring and marine, defense and mining tow systems. The purchase price allocation resulted in the recognition of \$14.1 million of goodwill (which is not deductible for tax purposes) and \$5.5 million of intangible assets (tradename, non-compete and customer relationships).

Table of Contents

The Company completed two business acquisitions during fiscal 2011. On June 2, 2011, the Company completed the acquisition of Weasler Engineering, Inc. ("Weasler") for \$153.2 million of cash. Weasler, which is headquartered in Wisconsin, is a global designer and manufacturer of highly engineered drive train components and systems for agriculture, lawn & turf and industrial equipment. Weasler also supplies a variety of torque limiters, high-end gear boxes, clutches and torsional dampers which expand the product offering of the Engineered Solutions segment. On December 10, 2010, the Company completed the acquisition of Mastervolt International Holding B.V. ("Mastervolt") for \$158.2 million of cash. Mastervolt, headquartered in The Netherlands, is a designer, developer and global supplier of highly innovative, branded power electronics, primarily for the European solar and marine markets. Mastervolt expands the Electrical segment's geographic presence and product offerings to include additional technologies associated with the efficient conversion, control, storage and conditioning of electrical power. The purchase price allocations for these fiscal 2011 acquisitions resulted in the recognition of \$152.4 million of goodwill (which is not deductible for tax purposes) and \$157.5 million of intangible assets, including \$81.5 million of customer relationships, \$69.9 million of tradenames, \$5.5 million of patents and technologies and \$0.6 million of non-compete agreements.

The Company makes an initial allocation of the purchase price, at the date of acquisition, based upon its understanding of the fair value of the acquired assets and assumed liabilities. The Company obtains this information during due diligence and through other sources. If additional information is obtained about these assets and liabilities within the measurement period (not to exceed one year from the date of acquisition), including through asset appraisals and learning more about the newly acquired business, the Company will refine its estimates of fair value. During the nine months ended May 31, 2012 goodwill was reduced by \$3.3 million, the net result of purchase accounting adjustments to the fair value of acquired assets and assumed liabilities, including a \$7.7 million reduction to Mastervolt's initial estimated warranty reserve.

The following unaudited pro forma results of operations of the Company for the three and nine months ended May 31, 2012 and May 31, 2011, give effect to these acquisitions as though the transactions and related financing activities had occurred on September 1, 2010 (in thousands, except per share amounts):

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2012	2011	2012	2011
Net sales				
As reported	\$ 429,215	\$ 392,777	\$1,200,038	\$1,041,887
Pro forma	430,356	427,159	1,219,104	1,178,722
Earnings from continuing operations				
As reported	\$ 34,401	\$ 38,360	\$ 103,750	\$ 87,163
Pro forma	34,668	42,037	107,485	98,927
Basic earnings per share from continuing operations				
As reported	\$ 0.48	\$ 0.56	\$ 1.50	\$ 1.28
Pro forma	0.49	0.61	1.55	1.45
Diluted earnings per share from continuing operations				
As reported	\$ 0.45	\$ 0.51	\$ 1.39	\$ 1.17
Pro forma	0.45	0.56	1.43	1.33

During the nine months ended May 31, 2012, the Company paid \$0.9 million of deferred consideration for acquisitions completed in previous periods. Transaction costs related to various business acquisition activities were \$1.0 million for the nine months ended May 31, 2012 and \$0.9 million in the comparable prior year period.

Note 3. Discontinued Operations

In the second quarter of fiscal 2011, the Company completed the sale of the European Electrical business for total cash proceeds of \$3.5 million, net of transaction costs. As a result of the sale transaction, the Company recognized a pre-tax loss on disposal of \$15.8 million. The following table summarizes the results of the European Electrical business, which has been reported as discontinued operations (in thousands):

	Three Months Ended May 31, 2011	Nine Months Ended May 31, 2011
Net sales	\$ —	\$ 49,305
Loss on disposal of business	(2,086)	(15,829)
Loss from operations of divested business	—	(1,157)
Income tax benefit	84	—
Loss from discontinued operations, net of income taxes	\$ (2,002)	\$ (16,986)

Table of Contents

Note 4. Restructuring

In fiscal 2009, in response to the dramatic downturn in the worldwide economy, the Company committed to various restructuring initiatives including workforce reductions, plant consolidations, the transfer of production and product sourcing to lower cost plants or regions and the centralization of certain selling and administrative functions. These major actions were substantially completed by August 31, 2010, with limited restructuring activity in subsequent periods. Subsequent restructuring costs were \$0.5 million and \$2.0 million for the three and nine months ended May 31, 2012, respectively and \$0.9 million and \$1.7 million for the three and nine months ended May 31, 2011, respectively.

The restructuring reserve at May 31, 2012 and August 31, 2011 was \$3.5 million and \$3.6 million, respectively. The remaining restructuring related to severance will be paid during the next twelve months, while facility consolidation costs (primarily reserves for future lease payments for vacated facilities) will be paid over the underlying lease terms.

Note 5. Goodwill and Other Intangible Assets

The changes in the carrying value of goodwill for the nine months ended May 31, 2012 are as follows (in thousands):

	Industrial	Energy	Electrical	Engineered Solutions	Total
Balance as of August 31, 2011	\$85,409	\$252,285	\$260,777	\$289,995	\$888,466
Businesses acquired	—	14,101	—	5,462	19,563
Purchase accounting adjustments	—	—	(3,995)	715	(3,280)
Impact of changes in foreign currency rates	(4,708)	(12,195)	(7,144)	(7,020)	(31,067)
Balance as of May 31, 2012	\$80,701	\$254,191	\$249,638	\$289,152	\$873,682

The gross carrying value and accumulated amortization of the Company's intangible assets are as follows (in thousands):

	Weighted Average Amortization Period (Years)	May 31, 2012			August 31, 2011		
		Gross Carrying Value	Accumulated Amortization	Net Book Value	Gross Carrying Value	Accumulated Amortization	Net Book Value
Amortizable intangible assets:							
Customer relationships	15	\$328,127	\$ 87,345	\$240,782	\$331,171	\$ 73,215	\$257,956
Patents	13	50,259	33,802	16,457	51,169	31,221	19,948
Trademarks and tradenames	20	41,178	7,966	33,212	38,917	6,571	32,346
Non-compete agreements and other	4	7,489	6,023	1,466	7,362	5,671	1,691
Indefinite lived intangible assets:							
Tradenames	N/A	<u>162,443</u>	<u>—</u>	<u>162,443</u>	<u>167,465</u>	<u>—</u>	<u>167,465</u>
		<u>\$589,496</u>	<u>\$ 135,136</u>	<u>\$454,360</u>	<u>\$596,084</u>	<u>\$ 116,678</u>	<u>\$479,406</u>

Amortization expense recorded on the intangible assets listed above was \$7.4 million and \$21.7 million for the three and nine months ended May 31, 2012, respectively, and \$6.9 million and \$19.8 million for the three and nine months ended May 31, 2011, respectively. The Company estimates that amortization expense will approximate \$7.4 million for the remainder of fiscal 2012. Amortization expense for future years is estimated to be as follows: \$27.8 million in fiscal 2013, \$26.2 million in fiscal 2014, \$26.1 million in fiscal 2015, \$25.9 million in fiscal 2016 and \$178.6 million thereafter. These future amortization expense amounts represent estimates, which may change based on future acquisitions or changes in foreign currency exchange rates.

Note 6. Product Warranty Costs

The Company generally offers its customers a warranty on products sold, although warranty periods vary by product type and application. The acquisition of Mastervolt during fiscal 2011 has increased the required warranty reserve, as this business has a longer base warranty period. The reserve for future warranty claims is based on historical claim rates and current warranty cost experience. The following is a rollforward of the accrued product warranty reserve (in thousands):

Table of Contents

	Nine Months Ended May 31,	
	2012	2011
Beginning balance	\$ 23,707	\$ 7,868
Purchase accounting adjustments	(7,726)	—
Warranty reserves of acquired business	237	10,870
Provision for warranties	8,444	7,416
Warranty payments and costs incurred	(8,567)	(3,664)
Impact of changes in foreign currency rates	(2,043)	1,366
Ending balance	<u>\$ 14,052</u>	<u>\$ 23,856</u>

Note 7. Debt

The following is a summary of the Company's long-term indebtedness (in thousands):

	May 31, 2012	August 31, 2011

Less: current maturities of long-term debt	<u>(6,250)</u>	<u>(2,500)</u>
Total long-term debt, less current maturities	<u>\$ 392,500</u>	<u>\$ 522,727</u>

The Company's Senior Credit Facility, which matures on February 23, 2016, provides a \$600.0 million revolving credit facility, a \$100.0 million term loan and a \$300.0 million expansion option, subject to certain conditions. Borrowings are subject to a pricing grid, which can result in increases or decreases to the borrowing spread, depending on the Company's leverage ratio, ranging from 1.25% to 2.50% in the case of loans bearing interest at LIBOR and from 0.25% to 1.25% in the case of loans bearing interest at the base rate. At May 31, 2012, the borrowing spread on LIBOR based borrowings was 1.75% (aggregating to 2.25% and 2.0% on outstanding term loan and revolver borrowings, respectively). In addition, a non-use fee is payable quarterly on the average unused credit line under the revolver ranging from 0.2% to 0.4% per annum. At May 31, 2012 the available and unused credit line under the revolver was \$598.3 million. Quarterly principal payments of \$1.25 million began on the \$100.0 million term loan on March 31, 2012, increasing to \$2.5 million per quarter beginning on March 31, 2013, with the remaining principal due at maturity. The Senior Credit Facility, which is secured by substantially all of the Company's domestic personal property assets, also contains customary limits and restrictions concerning investments, sales of assets, liens on assets, dividends and other payments. The two financial covenants included in the Senior Credit Facility agreement are a maximum leverage ratio of 3.75:1 and a minimum fixed charge coverage ratio of 1.50:1. The Company was in compliance with all debt covenants at May 31, 2012.

On April 16, 2012, the Company issued \$300.0 million of 5.625% Senior Notes due 2022 (the "Senior Notes") in a private offering. The Senior Notes require no principal installments prior to their June 15, 2022 maturity, require semiannual interest payments in December and June of each year and contain certain financial and non-financial covenants. The Company utilized the net proceeds from this issuance to fund the repurchase of all the Company's then outstanding \$250.0 million 6.875% Senior Notes due 2017 at a cost of 104%, or a total of \$260.4 million.

In November 2003, the Company issued \$150.0 million of Senior Subordinated Convertible Debentures due November 15, 2023 (the "2% Convertible Notes"). Prior to fiscal 2012, the Company repurchased (for cash) \$32.2 million of 2% Convertible Notes at an average price of 99.3% of par value. In addition, \$0.2 million of 2% Convertible Notes were converted into shares of the Company's Class A common stock in the first quarter of fiscal 2012. In March 2012, the Company called all of the remaining \$117.6 million of 2% Convertible Notes outstanding for cash at par. As a result of the call notice, a majority of the holders of the 2% Convertible Notes converted them into shares of the Company's Class A common stock, at a conversion rate of 50,6554 shares per \$1,000 of principal amount (resulting in the issuance of 5,951,440 shares of common stock) while the remaining \$0.1 million of 2% Convertible Notes were repurchased for cash. The impact of the additional share issuance was already included in the diluted earnings per share calculation (See Note 9, "Earnings per Share") on an if-converted method. As a result of the 2% Convertible Notes being redeemed for the Company's common stock, approximately \$15.6 million of related prior income tax will be recaptured.

Table of Contents

In fiscal 2011, the Company entered into interest rate swap contracts that had a total notional value of \$100.0 million and maturity dates of March 23, 2016. The interest rate swap contracts pay the Company variable interest at the three month LIBOR rate, and the Company pays the counterparties a fixed interest rate of approximately 2.06%. These interest rate swap contracts were entered into to synthetically convert \$100.0 million of the Senior Credit Facility variable rate borrowings into fixed rate debt. In connection with the debt refinancing transactions discussed above, the Company terminated the interest rate swap contracts on April 3, 2012, which resulted in a cash payment to the counterparty of \$4.1 million, in full settlement of the fair value of the contracts.

In connection with the debt refinancing activities, during the three months ended May 31, 2012, the Company recognized a \$16.8 million pre-tax debt refinancing charge, which included \$10.4 million of tender premium paid to holders of existing 6.875% Senior Notes, a \$2.3 million write-off of deferred financing fees and debt discount and a \$4.1 million charge related to the termination of the interest rate swap agreements. The related tax benefit on the debt refinancing charge was \$6.3 million.

Note 8. Fair Value Measurement

The Company assesses the inputs used to measure the fair value of financial assets and liabilities using a three-tier hierarchy. Level 1 inputs include quoted prices for identical instruments and are the most observable. Level 2 inputs include quoted prices for similar assets and observable inputs such as interest rates, foreign currency exchange rates, commodity rates and yield curves. Level 3 inputs are not observable in the market and include management's own judgments about the assumptions market participants would use in pricing the asset or liability. The Company has no financial assets or liabilities that are recorded at fair value using significant unobservable inputs (Level 3). The fair value of financial assets and liabilities included in the condensed consolidated balance sheet are as follows (in thousands):

	<u>May 31, 2012</u>	<u>August 31, 2011</u>
Level 1 Valuation:		
Cash equivalents	\$ 681	\$ 1,958
Investments	1,514	1,464
Level 2 Valuation:		
Foreign currency forward contracts	\$ (1,790)	\$ (81)
Interest rate swap contracts	—	(4,552)

The fair value of the Company's accounts receivable, accounts payable and variable rate debt approximated book value as of May 31, 2012 and August 31, 2011 due to their short-term nature and the fact that the applicable interest rates approximated market rates of interest. The fair value of the Company's outstanding \$117.8 million 2% Convertible Notes at August 31, 2011 was \$127.9 million, while the fair value of the Company's outstanding \$250.0 million of 6.875% Senior Notes was \$252.5 million. The fair value of the Company's outstanding \$300.0 million of 5.625% Senior Notes at May 31, 2012 was \$306.8 million. These fair values were based on quoted market prices and are therefore classified as Level 2 within the valuation hierarchy.

Anti-dilutive securities—equity based compensation plans (excluded from earnings per share calculation)			2,173	1,863
				2,735
				2,295

Note 10. Income Taxes

The Company's income tax expense is impacted by a number of factors, including the amount of taxable earnings derived in foreign jurisdictions with tax rates that are higher or lower than the U.S. federal statutory rate, permanent items, state tax rates and our ability to utilize various tax credits and net operating loss carryforwards. The Company adjusts the quarterly provision for income taxes based on the estimated annual effective income tax rate and facts and circumstances known at each interim reporting period.

The effective income tax rate was 16.1% and 20.9% for the three and nine months ended May 31, 2012, respectively, and 23.0% and 22.0% for the comparable prior year periods. The decrease in the effective tax rate for the three and nine months ended May 31, 2012, relative to the prior year, reflects the benefit of foreign tax credits, favorable tax reserve adjustments as a result of the lapsing of various tax statutes of limitations, the utilization of net operating losses and the tax benefit on the debt refinancing charges (Note 7, "Debt") being recognized at the U.S. statutory rates (which are higher than the Company's consolidated global effective tax rate).

The gross liability for unrecognized tax benefits, excluding interest and penalties, decreased from \$26.2 million at August 31, 2011 to \$24.2 million at May 31, 2012. Substantially all of these unrecognized tax benefits, if recognized, would reduce the effective income tax rate. In addition, as of August 31, 2011 and May 31, 2012, the Company had liabilities totaling \$5.1 million and \$4.4 million, respectively, for estimated interest and penalties related to its unrecognized tax benefits.

Note 11. Other Comprehensive Income (Loss)

The Company's comprehensive income is significantly impacted by the movement of the U.S. dollar versus other global currencies, most notably the Euro and British Pound. The following table sets forth the reconciliation of net earnings to comprehensive income (in thousands):

Table of Contents

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2012	2011	2012	2011
Net earnings	\$ 34,401	\$ 36,358	\$ 103,750	\$ 70,177
Foreign currency translation adjustment	(36,448)	20,114	(65,043)	47,924
Changes in net unrealized gains and losses, net of tax	2,940	(787)	2,911	2,052
Comprehensive income	<u>\$ 893</u>	<u>\$ 55,685</u>	<u>\$ 41,618</u>	<u>\$ 120,153</u>

Note 12. Segment Information

The Company is a global manufacturer of a broad range of industrial products and systems and is organized into four reportable segments: Industrial, Energy, Electrical, and Engineered Solutions. The Industrial segment is primarily involved in the design, manufacture and distribution of branded hydraulic and mechanical tools to the maintenance, industrial, infrastructure and production automation markets. The Energy segment provides joint integrity products and services, as well as rope and cable solutions to the global oil & gas, power generation and other energy markets. The Electrical segment designs, manufactures and distributes a broad range of electrical products to the retail DIY, wholesale, original equipment manufacturer (“OEM”), solar, utility, marine and harsh environment markets. The Engineered Solutions segment provides highly engineered position and motion control systems to OEMs in various on and off-highway vehicle markets, as well as, a variety of other products to the industrial and agricultural markets.

The following tables summarize financial information by reportable segment and product line (in thousands):

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2012	2011	2012	2011
Net Sales by Segment:

			<u>\$2,034,109</u>	<u>\$2,056,681</u>

Table of Contents

In addition to the impact of changes in foreign currency exchange rates, the comparability of segment and product line information is impacted by acquisitions. Corporate assets, which are not allocated, principally represent capitalized debt issuance costs, deferred income taxes and the fair value of derivative instruments.

Note 13. Contingencies and Litigation

The Company had outstanding letters of credit of \$8.5 million and \$9.5 million at May 31, 2012 and August 31, 2011, respectively, the majority of which secure self-insured workers compensation liabilities.

The Company is a party to various legal proceedings that have arisen in the normal course of its business. These legal proceedings typically include product liability, environmental, labor, patent claims and divestiture disputes. The Company has recorded reserves for loss contingencies based on the specific circumstances of each case. Such reserves are recorded when it is probable that a loss has been incurred as of the balance sheet date, can be reasonably estimated and is not covered by insurance. In the opinion of management, the resolution of these contingencies will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

The Company, in the normal course of business, enters into certain real estate and equipment leases or guarantees such leases on behalf of its subsidiaries. In conjunction with the spin-off of a former subsidiary in fiscal 2000, the Company assigned its rights in the leases used by the former subsidiary, but was not released as a responsible party from all such leases by the lessors. All of these businesses were subsequently sold. The Company remains contingently liable for those leases if any of these businesses are unable to fulfill their obligations thereunder. The discounted present value of future minimum lease payments for these leases was \$3.7 million at May 31, 2012.

The Company has facilities in numerous geographic locations that are subject to a range of environmental laws and regulations. Environmental expenditures over the past three years have not been material. Management believes that such costs will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Note 14. Guarantor Subsidiaries

On April 16, 2012, Actuant Corporation (the "Parent") issued \$300.0 million of 5.625% Senior Notes due 2022. All of the Company's material domestic wholly owned subsidiaries (the "Guarantors") fully and unconditionally guarantee (except for certain customary limitations) the 5.625% Senior Notes on a joint and several basis. The Company plans to file a registration statement on Form S-4 with the Securities and Exchange Commission (the "SEC") with respect to its offer to exchange new 5.625% Senior Secured Notes due 2022 that have been registered under the Securities Act of 1933 for any and all of its outstanding 5.625% Senior Secured Notes due 2022 that have not been so registered. There are no significant restrictions on the ability of the Guarantors to make distributions to the Parent. The following tables present the results of operations, financial position and cash flows of Actuant Corporation and its subsidiaries, the Guarantor and non-Guarantor entities, and the eliminations necessary to arrive at the information for the Company on a consolidated basis.

Certain assets, liabilities and expenses have not been allocated to the Guarantors and non-Guarantors and therefore are included in the Parent column in the accompanying consolidating financial statements. These items are of a corporate or consolidated nature and include, but are not limited to, tax provisions and related assets and liabilities, certain employee benefit obligations, prepaid and accrued insurance and corporate indebtedness. Intercompany activity in the consolidating financial statements primarily includes loan activity, purchases and sales of goods or services and dividends. Intercompany balances also reflect certain non-cash transactions including transfers of assets and liabilities between the Parent, Guarantor and non-Guarantor, allocation of non-cash expenses from the Parent to the Guarantors and non-Guarantors, the impact of foreign currency rate changes and non-cash intercompany dividends.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Actuant Corporation, headquartered in Menomonee Falls, Wisconsin, is a Wisconsin corporation incorporated in 1910. We are a global diversified company that designs, manufactures and distributes a broad range of industrial products and systems to various end markets. We are organized into four operating and reportable segments: Industrial, Energy, Electrical and Engineered Solutions.

Our long-term goal is to grow annual diluted earnings per share (“EPS”), excluding unusual or non-recurring items, faster than most multi-industry peers. We intend to leverage our leading market positions to generate annual internal sales growth that exceeds the annual growth rates of the gross domestic product in the geographic regions in which we operate. In addition to internal sales growth, we are focused on acquiring complementary businesses. Following an acquisition, we seek to drive cost reductions, develop additional cross-selling opportunities and deepen customer relationships. We also focus on profit margin expansion and cash flow generation to achieve our financial and EPS growth goals. Our LEAD (“Lean Enterprise Across Disciplines”) process utilizes various continuous improvement techniques to drive out costs and improve efficiencies across all locations and functions worldwide, thereby expanding profit margins. Strong cash flow generation is achieved by maximizing returns on net assets and minimizing primary working capital needs. Our LEAD efforts also support our Growth + Innovation initiative, a process focused on improving core sales growth. The cash flow that results from efficient asset management and improved profitability is used to reduce debt and fund additional acquisitions and internal growth opportunities.

The comparability of the operating results for the three months and nine months ended May 31, 2012 to the comparable prior year periods has been impacted by acquisitions, changes in foreign currency translation rates and the economic conditions that exist in the end markets we serve. Listed below are the significant acquisitions completed since September 1, 2010.

Business	Segment	Acquisition Date
Turotest Medidores Ltda	Engineered Solutions	March 2012
Jeyco Pty Ltd.	Energy	February 2012
Weasler Engineering, Inc.	Engineered Solutions	June 2011
Mastervolt Intl. Holding B.V.	Electrical	December 2010

In addition to acquisitions, changes in foreign currency exchange rates also influence our financial results as approximately one-half of our sales are denominated in currencies other than the U.S. dollar. The year-over-year strengthening of the U.S. dollar during the first nine months of fiscal 2012 has negatively impacted our operating results due to the translation of non-U.S. dollar denominated results.

Our businesses provide a vast array of products and services across multiple customers, end markets and geographies which results in significant diversification. Since the global recession in 2009, the majority of our end markets have improved, the result of economic expansion, increased worldwide demand for energy, elevated industrial manufacturing activities and increased production of vehicles for the heavy-duty truck, construction, military and agricultural markets.

Our long-term growth will depend not only on changes in end markets and the overall economic environment, but also on our ability to identify, consummate and integrate strategic acquisitions, develop innovative new products, expand our business activity geographically (developing countries) and continuously improve operational excellence. We remain focused on maintaining our financial strength by adjusting our cost structure to reflect any reduction in market demand and by proactively managing working capital and cash flow generation.

Results of Operations

Core sales growth in the Industrial segment has recently moderated from previous quarters, primarily due to tougher prior year comparables. Overall we continue to experience strong industrial demand across most end markets and robust activity for customized high force hydraulic systems (integrated solutions). During fiscal 2012, the Energy segment has consistently delivered double digit core sales growth as certain oil & gas end markets continue to show strength. This improved end market demand and emerging market opportunities are expected to continue to drive core sales growth and operating profit margin expansion during the remainder of the fiscal year. While end market demand in our Electrical segment has not fully recovered from the depressed levels during the global economic recession, the segment generated solid core sales growth in the first nine months of fiscal 2012 – the result of price increases and recent improved demand for electrical products in the utility, OEM, solar and retail DIY channels. Finally, we expect continued core sales declines in the Engineered Solutions segment during the balance of the fiscal year, as a result of more difficult prior year comparables and weaker European auto and global truck OEM production schedules. On a consolidated basis, our Growth + Innovation initiatives and recent acquisitions are expected to provide significant growth opportunities, diversify our product offerings and expand our geographic presence.

Table of Contents

The following table sets forth our results of operations (in millions):

	Three Months Ended May 31,				Nine Months Ended May 31,			
	2012	2011	2012	2011	2012	2011	2012	2011
Net sales	\$429	100%	\$393	100%	\$1,200	100%	\$1,042	100%
Cost of products sold	263	61%	239	61%	740	62%	641	62%
Gross profit	166	39%	154	39%	460	38%	401	38%
Selling, administrative and engineering expenses	91	21%	89	23%	264	22%	244	23%
Amortization of intangible assets	7	2%	7	2%	22	2%	20	2%
Operating profit	68	16%	58	15%	174	15%	137	13%
Financing costs, net	7	2%	8	2%	23	2%	24	2%
Debt refinancing charges	17	4%	—	0%	17	1%	—	0%
Other expense, net	3	1%	1	0%	3	0%	1	0%
Earnings before income tax expense	41	10%	49	12%	131	11%	112	11%
Income tax expense	7	2%	11	3%	27	2%	25	2%
Earnings from continuing operations	<u>\$ 34</u>	8%	<u>\$ 38</u>	10%	<u>\$ 104</u>	9%	<u>\$ 87</u>	8%

Net sales increased 9% to \$429 million for the third quarter and 15% to \$1,200 million for the nine months ended May 31, 2012 compared to \$393 million and \$1,042 million for the comparable three and nine month periods in the prior year. Changes in foreign currency exchange rates (most notably the Euro) had a \$12 million and \$8 million unfavorable impact on third quarter and year-to-date sales comparisons, respectively. Sales generated by businesses acquired since September 1, 2010, were \$32 million and \$139 million, respectively, for the three and nine months ended May 31, 2012. Consolidated core sales growth (growth excluding the effects of foreign exchange and acquisitions) was 4% and 6% on a quarterly and year-to-date basis, respectively, the result of broad based improvement in most of the Company's served markets. Consolidated operating profit margins expanded in both the third quarter and year-to-date, the result of an improved cost structure, favorable product mix, selective price increases, reduced incentive compensation costs and improved operating leverage on the higher sales volumes. The changes in sales and operating profit at the segment level are discussed in further detail below.

Segment Results (in millions)

Industrial Segment

The Industrial segment is primarily involved in the design, manufacture and distribution of branded hydraulic and mechanical tools to the maintenance, industrial, infrastructure and production automation markets. During the third quarter of fiscal 2012, the segment generated core sales growth as certain end markets (mining, industrial, infrastructure) continued to show strength. The Industrial segment focuses on providing customers with innovative integrated solutions, commercializing new products and expanding in faster growing regions and vertical markets. The following table sets forth the results of operations for the Industrial segment (in millions):

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2012	2011	2012	2011
Net sales	\$ 110	\$ 108	\$ 309	\$ 284
Operating profit	31	30	85	70
Operating profit %	28%	27%	28%	25%

Fiscal 2012 third quarter net sales increased \$2 million (2%) to \$110 million compared to the prior year period, while year-to-date net sales increased \$25 million (9%) to \$309 million. Changes in foreign currency exchange rates negatively impacted sales comparisons by \$3 million and \$2 million for the three and nine month periods, respectively. Core sales growth was 5% for the third quarter and 9% year-to-date, driven by strong demand across our served end markets and geographies. These increased sales volumes, favorable product mix and lower incentive compensation costs resulted in operating profit margin expansion during both the third quarter and on a year-to-date basis. Industrial segment operating profit increased for the three and nine months ended May 31, 2012 by \$1 million (4%) and \$15 million (22%), respectively.

Energy Segment

The Energy segment provides joint integrity products and services, as well as rope and cable solutions to the global oil & gas, power generation and other energy markets. Being a later cycle business, our Energy segment was the last of our four segments to recover from the global recession. Worldwide requirements for energy and supportive oil prices have encouraged customers and asset owners to invest in capital projects or complete previously deferred maintenance activities. As a result, we are seeing broad-based strength across this segment, which has delivered five consecutive quarters of double digit core sales growth. The following table sets forth the results of operations for the Energy segment (in millions):

Table of Contents

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2012	2011	2012	2011
Net sales	\$ 96	\$ 78	\$ 256	\$ 210
Operating profit	19	14	43	32
Operating profit %	19%	17%	17%	15%

Energy segment net sales for the three and nine months ended May 31, 2012 increased \$18 million (24%) and \$46 million (22%), respectively, compared to the prior year periods. Excluding sales from the recently completed Jeyco acquisition and the impact of foreign currency exchange rates (which unfavorably impacted sales comparisons by \$2 million and \$1 million in the current quarter and year-to-date periods, respectively), core sales grew 23% and 21%, respectively in the three and nine months ended May 31, 2012. Core sales growth reflects higher activity levels across the segment's diverse end markets, including maintenance spending in oil & gas, strong sales to the North American power generation (nuclear) market and capital project activity in offshore energy. Energy segment operating profit increased by \$5 million (37%) to \$19 million for the third quarter compared to a year-to-date increase of \$11 million (35%) to \$43 million. Improved year-to-date operating profit margins were driven by continued productivity improvements, increased operating leverage (driven by higher sales volumes) as well as a favorable adjustment to an acquisition earn-out provision.

Electrical Segment

The Electrical segment is primarily involved in the design, manufacture and distribution of a broad range of electrical products to the retail DIY, wholesale, OEM, solar, utility, marine and harsh environment markets. During the third quarter of fiscal 2012, the Electrical segment delivered double digit core sales growth, as North American end markets (utility, DIY, wholesale and OEM) continued to recover from recessionary lows and activity levels in European solar markets improved. Future results of the Electrical segment will continue to be impacted by fluctuations in commodity costs, the realization of price increases, changes in European solar feed-in tariffs and end market demand in North America. The following table sets forth the results of operations for the Electrical segment (in millions):

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2012	2011	2012	2011
Net sales	\$ 86	\$ 80	\$ 246	\$ 206
Operating profit	9	5	20	14
Operating profit %	10%	7%	8%	7%

Fiscal 2012 third quarter Electrical segment net sales increased \$6 million (7%) to \$86 million. Excluding the \$2 million unfavorable impact of changes in foreign currency exchange rates, core sales growth was 10%, the result of price increases and higher sales volumes in the retail, industrial, utility and solar markets. Electrical segment net sales for the nine months ended May 31, 2012 were \$246 million, a \$40 million (19%) improvement over the prior year period. Excluding sales from the Mastervolt acquisition and changes in foreign currency exchange rates, core sales growth for the nine months ended May 31, 2012 was 8%. Electrical segment operating profit for the three and nine months ended May 31, 2012 was \$9 million and \$20 million, respectively. Despite unfavorable acquisition mix, higher incentive compensation costs and \$0.5 million of restructuring costs associated with plant closures, quarterly operating profit increased due to higher sales volumes and favorable product mix.

Engineered Solutions Segment

The Engineered Solutions segment provides highly engineered position and motion control systems to OEMs in a variety of markets. As expected, this segment experienced a core sales decline in the third quarter, reflecting lower production rates by European and China truck OEMs, as well as automotive OEMs. However, most other end markets are seeing increased sales levels, including strong demand from the global agriculture and North American truck and construction equipment end markets. The recent Weasler and Turotest acquisitions have provided sales and earnings growth opportunities for the segment, by expanding into new markets (primarily in the North American, European and Brazilian agricultural markets). The following table sets forth the results of operations for the Engineered Solutions segment (in millions):

Table of Contents

	Three Months Ended May 31,		Nine Months Ended May 31,	
	2012	2011	2012	2011
Net sales	\$ 137	\$ 127	\$ 390	\$ 342
Operating profit	19	20	51	47
Operating profit %	14%	16%	13%	14%

Engineered Solutions segment third quarter net sales increased \$10 million (8%) from \$127 million in the prior year to \$137 million in fiscal 2012. During the nine months ended May 31, 2012, year-over-year net sales increased \$48 million (14%) to \$390 million. Excluding foreign currency rate changes and sales from acquired businesses, core sales declined 11%, and 7% respectively, for the third quarter and first nine months of fiscal 2012. The impact of sales from acquired businesses was \$29 million and \$77 million in the three and nine months ended May 31, 2012, respectively. The decline in core sales was due to a reduction in OEM production schedules for convertible auto as well as China and European heavy-duty trucks. Segment operating profit declined from the prior year periods as the impact of the reduced volume and related under-absorption of operating costs was only partially offset by lower incentive compensation costs and favorable segment mix.

General Corporate

General corporate expenses for the three and nine months ended May 31, 2012 were \$9 million and \$25 million compared to \$11 million and \$27 million in the comparable prior year periods. Corporate expenses declined due to reduced incentive compensation costs and lower idle facility holding costs, offset by increased Growth + Innovation expenditures.

Financing Costs, net

All debt is considered to be for general corporate purposes and therefore financing costs have not been allocated to our segments. Financing costs, net declined modestly year-over-year due to lower interest rates and amounts outstanding under the Company's credit facility.

Debt Refinancing Charges

During the three months ended May 31, 2012, the Company recognized a \$17 million debt refinancing charge, which included \$10 million of tender premium paid to holders of existing 6.875% Senior Notes, a \$2 million write-off of deferred financing fees and debt discount and a \$4 million charge related to the termination of the interest rate swap agreements.

Income Tax Expense

Our effective income tax rate was 16.1% and 20.9% for the three and nine months ended May 31, 2012, respectively, and 23.0% and 22.0% for the comparable prior year periods. The year-over-year decline resulted from increased utilization of foreign tax credits, favorable tax reserve adjustments as a result of the lapsing of various tax statutes of limitations, the utilization of net operating losses and the tax benefit on the debt refinancing charges (Note 7, "Debt") being recognized at the U.S. statutory rates (which are higher than the Company's consolidated global effective tax rate).

Cash Flows

The following table summarizes the cash flows from operating, investing and financing activities (in millions):

	Nine Months Ended May 31,	
	2012	2011
Net cash provided by operating activities	\$ 129	\$ 95
Net cash used in investing activities	(39)	(171)
Net cash (used in) provided by financing activities	(50)	99
Effect of exchange rates on cash	(4)	5
Net increase in cash and cash equivalents	\$ 36	\$ 28

Cash flows from operating activities during the nine months ended May 31, 2012 were \$129 million, the result of net earnings offset by the \$28 million payment of fiscal 2011 incentive compensation costs, \$15 million use of cash related to the debt refinancing transactions and increased working capital requirements. This operating cash flow and the proceeds from the third quarter debt refinancing funded \$39 million of treasury stock purchases, \$30 million of capital deployed for acquisitions and the repayment of revolving credit facility borrowings. Proceeds from the sale of property, plant and equipment (which included the sale-leaseback of certain equipment and the sale of a vacant facility) were \$8 million, while related capital expenditures were \$17 million.

As described in Note 7, "Debt" we refinanced a portion of our long-term debt at lower interest rates and reduced overall indebtedness with the conversion of our \$117 million of 2% Convertible Notes into shares of common stock. These actions will reduce our future financing costs and improve our capital structure.

In the first nine months of fiscal 2011 we utilized the cash provided from operating activities and new borrowings under our Senior Credit Facility to fund the \$158 million acquisition of Mastervolt.

Table of Contents

Primary Working Capital Management

We use primary working capital as a percentage of sales (PWC %) as a key indicator of working capital management efficiency. We define this metric as the sum of net accounts receivable and net inventory less accounts payable, divided by the past three months sales annualized. The following table shows the components of the metric (in millions):

	<u>May 31, 2012</u>	<u>PWC%</u>	<u>May 31, 2011</u>	<u>PWC%</u>
Accounts receivable, net	\$ 238	14%	\$ 234	15%
Inventory, net	206	12%	213	14%
Accounts payable	(168)	-10%	(172)	-11%
Net primary working capital	<u>\$ 276</u>	<u>16%</u>	<u>\$ 275</u>	<u>18%</u>

Improved working capital management drove a reduction in our PWC % despite a growth in sales and contributed to favorable current year cash flow from operating activities.

Liquidity

Our Senior Credit Facility includes a \$600 million revolving credit facility, a \$100 million term loan and a \$300 million expansion option. Quarterly principal payments of \$1.25 million began on the \$100 million term loan on March 31, 2012, increasing to \$2.5 million per quarter beginning on March 31, 2013, with the remaining principal due at maturity. At May 31, 2012, we had \$80 million of cash and cash equivalents and \$598 million of available liquidity under our Senior Credit Facility. Our scheduled debt repayments over the next three years aggregated approximate \$30 million, providing substantial flexibility. We believe that the availability under the Senior Credit Facility, combined with our existing cash and funds generated from operations will be adequate to meet operating, debt service, stock buyback, acquisition funding and capital expenditure requirements for the foreseeable future.

Commitments and Contingencies

We lease certain facilities, computers, equipment and vehicles under various operating lease agreements, generally over periods from one to twenty years. Under most arrangements, we pay the property taxes, insurance, maintenance and expenses related to the leased property. Many of the leases include provisions that enable us to renew the lease based upon fair value rental rates on the date of expiration of the initial lease.

In the normal course of business we have entered into certain real estate and equipment leases or have guaranteed such leases on behalf of our subsidiaries. In conjunction with the spin-off of a former subsidiary in fiscal 2000, we assigned our rights in the leases used by the former subsidiary, but were not released as a responsible party from all such leases by the lessors. All of these businesses were subsequently sold. We remain contingently liable for those leases if any of these businesses are unable to fulfill their obligations thereunder. The discounted present value of future minimum lease payments for these leases was \$3.7 million at May 31, 2012.

We had outstanding letters of credit of approximately \$8 million and \$9 million at May 31, 2012 and August 31, 2011, respectively, the majority of which secure self-insured workers compensation liabilities.

Contractual Obligations

Our contractual obligations are discussed in Part 1, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" under the heading "Contractual Obligations" in our Annual Report on Form 10-K for the year ended August 31, 2011. Our contractual obligations have not materially changed since that report was filed, except with respect to debt maturities. As discussed in Note 7, "Debt" in the notes to the condensed consolidated financial statements, during the third quarter of fiscal 2012, we refinanced our 6.875% Senior Notes (due 2017) with new 5.625% Senior Notes (due 2022) and substantially all of the outstanding 2% Convertible Notes were converted into common stock.

Item 3 – Quantitative and Qualitative Disclosures about Market Risk

There has been no significant change in our exposure to market risk during the nine months ended May 31, 2012. For a discussion of our exposure to market risk, refer to Item 7A, Quantitative and Qualitative Disclosures about Market Risk, contained in our Annual Report on Form 10-K for the fiscal year ended August 31, 2011.

Table of Contents

Item 4 – Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

Under the supervision and with the participation of our senior management, including our chief executive officer and chief financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of the end of the period covered by this quarterly report (the “Evaluation Date”). Based on this evaluation, our chief executive officer and chief financial officer concluded as of the Evaluation Date that our disclosure controls and procedures were effective such that the information relating to the Company, including consolidated subsidiaries, required to be disclosed in our Securities and Exchange Commission (“SEC”) reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to the Company’s management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). There have been no changes in our internal control over financial reporting that occurred during the quarter ended May 31, 2012 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II – OTHER INFORMATION

Items 1, 1A, 3, 4 and 5 are not applicable and have been omitted.

Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

In September 2011, the Company’s Board of Directors authorized a stock repurchase program to acquire up to 7 million shares of the Company’s outstanding Class A Common Stock. The following table presents information regarding the repurchase of common stock by the Company during the three months ended May 31, 2012. All of the shares were repurchased as part of the publicly announced program.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Maximum Number of Shares That May Yet Be Purchased Under the Program
March 1 to March 31, 2012	—	—	6,000,720
April 1 to April 30, 2012	—	—	6,000,720
May 1 to May 31, 2012	<u>732,965</u>	<u>\$ 25.71</u>	<u>5,267,755</u>
Total	<u>732,965</u>	<u>\$ 25.71</u>

* Furnished herewith

CERTIFICATION

I, Robert C. Arzbaecher, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Actuant Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting
